

when you hover over the words, they should be a different color. I believe they're supposed to be red instead of the blue when you first look at them and then they turn like white or something I'm going to attach the image of what they're supposed to look like below..

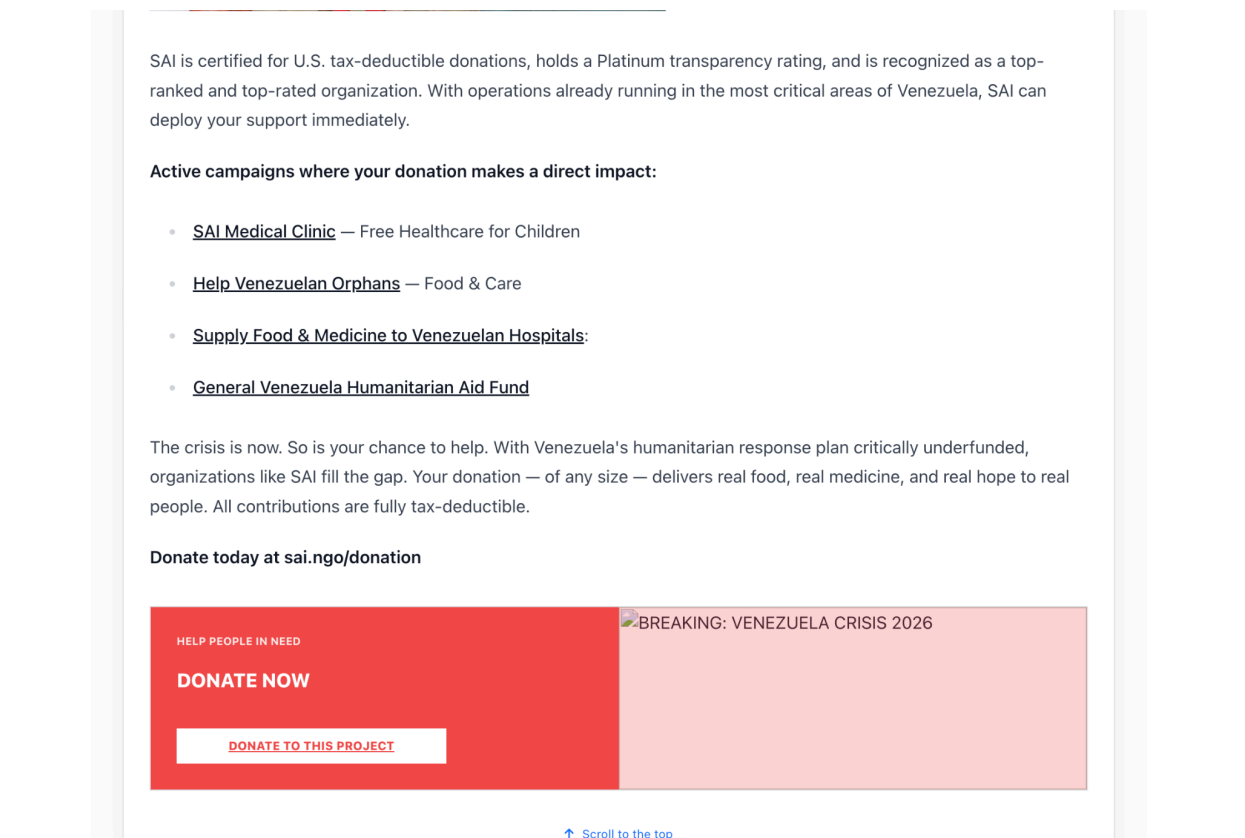

the scroll and scroll to the top is supposed to be in the same link, as well as the about us and campaign page. There's no reason why this is in blue. It's also not centered properly. Please fix this in the footer.

we're missing the picture. It looks like it is broken. Please fix I'm attaching the page URL.

<https://sai.ngo/report/newsvenezuela>

Something seems to be going on with multiple pages with the images missing like many of the project pages under the gallery the images it just disappeared
